TECHNICAL SHEET :

ENGINEERED FLOOR – DOUBLE LAYER

Quality

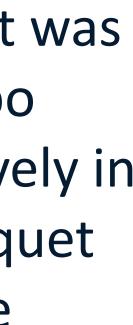

The quality of the XYLOPAK S.A brand products is attested by the most important authorities such as CE, FSC

Tradition

XYLOPAK S.A industry is currently one of the most prestigious contemporary industries in the processing of wood in Greece. It was founded 50 years ago in Charopo Serres and it specializes exclusively in the production of solid oak parquet and engineered flooring, for the construction of wooden floor.

Technology

In everything we do, we try to be the best, so we put great emphasis on the staff training, the quality of the machines used in the production process because we know that the parquet is the one that stands out when you first enter a room.

100% Wood

The wooden floors give credence to classic or modern and definitely noble and warm profile to professional venues or houses.

GENERAL CARACTERISTICS

THE DOUBLE LAYER FLOOR is made by overlapping two layers of wood, oak and birch, with a heavy layer of 3 / 3,4 mm thick solid oak top layer and a high performance stability support layer of 10 mm thick birch plywood. Oak wood (Quercus spp.) comes from its own forestry exploitation in Romania, it is a hardwood species of deciduous tree, with high durability against aggressive factors. This new double-layer floor is made in a wide variety of colors, sizes and qualities.

THE DOUBLE LAYER FLOOR is used for interior floors, heavy traffic, with superior selectivity requirements for outstanding design, remarkable technical performance, reliability, durability, thermal and acoustic comfort, ecosanogenic properties.

RESISTANT

Unfinished Herringbone oak code HE 710

EXTRA

Small and sound knots, up to 4 mm of diameter. No sapwood. Colors relatively uniform.

NATUR

Sound knots up to 10 mm, light sapwood, variation of colors, slight stress cracks are possible.

QUALITY GRADES

BR

Sound knots up to 20 mm and up to 40 mm of diameter for strips of parquet from 130 to 170 mm, tiny cracks are allowed, sapwood, discoloration allowed. Unfinished flooring: open knots. Finished flooring: filled knots.

EXTRA D

Knots up to 4mm, discoloration allowed. Unfinished flooring: open knots. Finished flooring: filled knots.

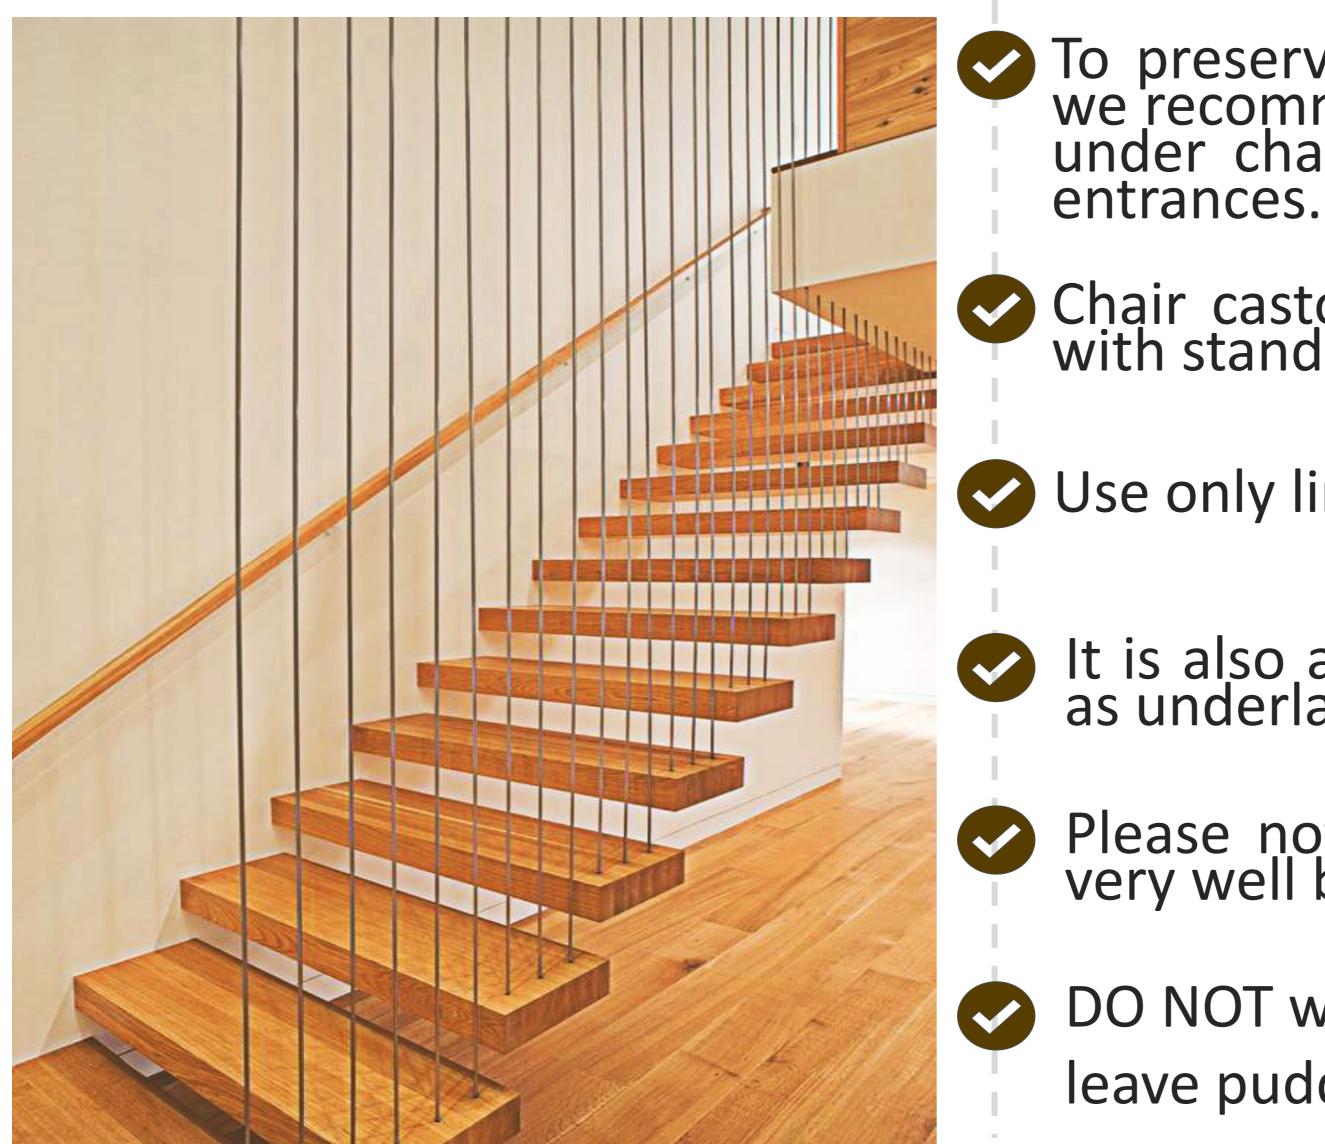

SURFACE TREATMENT

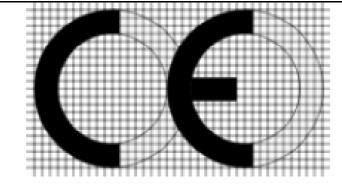

- To preserve the quality and beauty of your floor we recommend using Teflon furniture glides (PTFE) under chairs and furniture legs and doormats in
- Chair castors and office roller chairs must comply with standard EN 12529.
- Use only lined rollers of type W (soft).
- It is also a good idea to use polycarbonate mats as underlay for armchairs and office chairs.
- Please note: Always wring out the cloth or mop very well before wiping the floor.
- DO NOT wet mop the parquet surface and NEVER leave puddles or standing water!

ENGINEERED FLOOR- CE Marking:
